

COMMITMENT TO ENVIRONMENT & SUSTAINABILITY

Commitment to Environment & Sustainability

At MT Group, we recognize our responsibility to protect and preserve the environment for current and future generations. We are committed to integrating sustainable practices into all aspects of our operations and promoting environmental stewardship throughout our organization.

Environmental sustainability is a core value that guides our decision-making processes and shapes our strategies. We understand that our actions have an impact on the environment, and we are dedicated to minimizing that impact by adhering to the highest environmental standards and regulations.

To fulfill our commitment to the environment and sustainability, we focus on:

1. **Reducing our carbon footprint:** We implement measures to minimize greenhouse gas emissions and energy consumption. This includes adopting energy-efficient technologies, optimizing transportation logistics, and promoting the use of renewable energy sources whenever possible.
2. **Managing waste responsibly:** We strive to minimize waste generation, promote recycling and reuse, and properly dispose of any hazardous materials. Through efficient waste management practices, we aim to reduce our environmental impact and contribute to a circular economy.
3. **Protecting natural resources:** We work to conserve water, minimize water usage in our operations, and implement sustainable water management practices. Additionally, we are mindful of the responsible use of raw materials and promote their efficient and sustainable utilization.
4. **Preserving biodiversity:** We seek to protect and enhance biodiversity in our operations and contribute to the conservation of natural habitats. We comply with relevant environmental regulations and standards, and where possible, collaborate with stakeholders to support conservation efforts.

5. Continuous improvement: We regularly review and assess our environmental performance, setting targets and monitoring our progress. We strive for continual improvement, embracing new technologies and best practices to further enhance our environmental sustainability efforts.
6. By wholeheartedly embracing our commitment to the environment and sustainability, we expect all our partners, subcontractors, employees, stakeholders to join us in actively pursuing environmentally responsible practices. Together, we can create a more sustainable future, where business success goes hand in hand with environmental preservation and the well-being of our planet.

Yours faithfully,

MT Group Management
